Products and services

At **Targa Innovations**, we know what your priorities are!

You want:

- To communicate more quickly and efficiently.
- To reduce the risk of errors.
- To eliminate paperwork and hard copy transcription.
- To save time.
- To manage human resources more easily.
- To simplify the daily report process.

You want to increase:

- The quality of your services.
- The reliability of your communication.
- Your customers' satisfaction.
- The volume of your daily transactions.
- Your efficiency and your productivity.
- Your performance.
- Your sales.

Targa Innovations is there for you!

TARGA's AIR text messaging is a brand new technology dedicated to communication between individuals.

TARGA's AIR text messaging is a simple, quick and efficient real-time communication solution.

With TARGA's AIR text messaging:

- You can send a message to one or more recipients.
- The recipient receives notification of the message – visual or sounding signal.
- You know when your message is read.
- You immediately receive a read notification.
- You can immediately receive a real-time answer to your question.

Targa Innovations' AIR text messaging, A SIMPLE SOLUTION!

- Nothing to install on cellular devices.
- Compatible with most cellular devices.
- No maximum number of characters when sending messages.

Targa's AIR product will meet your needs. The user-friendly WEB interface will greatly increase the effectiveness of your communication. TARGA's AIR text messaging, coupled with our **work order** application: it is the perfect combination!
